## Notice Regarding Acquisition of Shares of Liblock Inc., a System Engineering Service Company

AIFUL Corporation (President and CEO: Mitsuhide Fukuda) hereby announces that it has acquired all shares of Liblock Inc. (Head Office: Tokyo; Representative Director: Takashi Oto), which operates a system engineering service business, and made it a wholly owned subsidiary.

### 1. Background of Share Acquisition and Making Liblock Inc. a Wholly Owned Subsidiary

The AIFUL Group has been promoting in-house production in the three areas of digitalization, data analysis, and design to “improve customer convenience and visibility,” “reduce costs,” and “increase response speed” with the aim of growing as an IT Finance Group through organizational and institutional reforms in response to changes in business environment and utilization of digital technologies.

By welcoming Liblock Inc. which will be the second system engineering service provider in the AIFUL Group, we intend to diversify our future revenue sources and bring in-house development in the digital/IT field.

### 2. Outline of the Subsidiary to be Acquired
