III. Consolidated Forecast for the Fiscal Year 2011 (April 1, 2012 – March 31, 2013):

As the business environment in which the AIFUL Group operates is extremely uncertain at the moment, given developments in claims for interest repayment, in addition to the effects of changes in the management environment due to the industrial consolidation, restrictions on total lending limits under the Money Lending Business Act, and reductions in maximum interest rates under the Capital Subscription Law, the AIFUL Group is not currently in a position to determine results forecasts for fiscal 2012, the fiscal year ending March 31, 2013, recognizing the difficulty in ascertaining the resultant effects on the Group's results. For matters related results forecasts above, please see the "1.Business Results, (1)Analysis on Business Results (Forecast for operations in fiscal 2012.

1. Quarterly Qualitative Information on Consolidated Business Results

(1) Qualitative Information on Consolidated Business Results

During the first quarter of the consolidated fiscal year under review (from April 1, 2012 to June 30, 2012), the Japanese economy was recovering moderately against a backdrop of demand for post-earthquake projects and other factors, but changes in the financial and capital markets and lower-than-expected growth in overseas economies due to the sovereign debt crisis in Europe left the future outlook uncertain.

Turning to the consumer finance industry in Japan, the operating environment remained severe. Factors for this included a market contraction caused by the introduction of restrictions on total lending limits following the full enforcement of the Money Lending Business Act in June 2010 and the effects of reductions in maximum interest rates pursuant to the Act Regulating the Receipt of Contributions, Receipt of Deposits and Interest Rates (capital subscription law), as well as the response to the persistently high level of claims for interest repayment.

In this environment, the AIFUL Group, in order to steadily execute its Business Revitalization Plan approved on December 24, 2009, used a consensual business revitalization alternative dispute resolution (the “ADR process”) and reorganized the Group. It also sought to improve its financial position and profitability by slashing operating overheads and improving operating efficiency through structural cost reforms, including the closure and amalgamation of offices, and by building a quality loan portfolio.

Although the AIFUL Group was undertaking these fundamental structural reforms, persistently high levels of claims for interest repayment continued to underlie the management environment. Consequently, with the aim of further reducing costs, the AIFUL Group downsized the number of employees by 341 through a call for early retirement, as announced on April 27, 2012.

In addition, the AIFUL Group also took steps to reduce costs and improve operational efficiency by outsourcing its system development and operation business to the systems division of Life Card Co., Ltd. on July 1, 2012.

Going forward, the entire AIFUL Group will work to improve business efficiency and to reform the cost structure while also steadily making repayments commensurate with the Business Revitalization Plan, putting all of its effort into restructuring its business.

(Overview of the Results)

The AIFUL Group’s consolidated operating revenue for the first quarter of fiscal year 2012 fell 15.3% compared with the corresponding period of the previous fiscal year, to 25,958 million yen. The principal components and their movements were interest on loans, which contracted 21.6% year on year, to 16,420 million yen, revenue from the credit card business, which increased 6.9%, to 2,995 million yen, and revenue from the credit guarantee business, which decreased 8.6%, to 1,140 million yen. Also, the collection of purchased receivables declined 24.1%, to 724 million yen, and the recovery of loans previously charged off edged up 0.6%, to 3,009 million yen.

Operating expenses fell 7,697 million yen, or 28.6%, compared with the corresponding period of previous fiscal year, to 19,182 million yen, primarily reflecting a decline in the accounting of a provision for doubtful accounts of 5,903 million yen.

As a result, the AIFUL Group’s consolidated operating income for the first quarter of fiscal year 2012 was 6,776 million yen, up 79.7% year on year, and ordinary income amounted to 6,398 million yen, an increase of 83.5%. Net income totaled 6,211 million yen, a rise of 183.0% year on year.

(2) Qualitative Information on Consolidated Financial Position

Total assets as of the end of first quarter, or June 30, 2012, on a consolidated basis declined 40,452 million yen, or 6.1%, compared to the end of the previous fiscal year, to 624,732 million yen. This was primarily due to a 24,567 million yen decline in loans outstanding due to restrictions on total lending limits.

Total liabilities stood at 536,846 million yen, a decrease of 46,693 million yen, or 8.0%, compared with the previous fiscal year-end. The principal factors contributing to this decline were the repayment of bonds and debts, which led to a drop of 31,314 million yen and a decrease of 9,430 million yen in allowance for losses on interest repayments due to the appropriation for interest repayments.

Net assets increased 6,241 million yen, or 7.6%, compared with the end of the previous fiscal year, to 87,885 million yen.

This was largely attributable to the posting of net income.

(Cash Flows)

Cash and cash equivalents (“funds”) declined 18,712 million yen, or 21.6%, compared to the end of the previous fiscal year to 67,983 million yen.

(Cash flows from operating activities)

Net cash provided by operating activities amounted to 12,129 million yen, a decrease of 6.1% compared with the corresponding period of the previous fiscal year. During the period under review, the increase in funds caused by the decline in operating receivables including loans to customers exceeded the decline in funds due to the drop in the allowance for losses on interest payments.

(Cash flows from investing activities)

Net cash provided by investing activities totaled 489 million yen, a decrease of 78.8% compared with the corresponding period of previous fiscal year. This was mainly attributable to the collection of long-term loans receivable.

(Cash flows from financing activities)

Net cash used for financing activities amounted to 31,325 million yen, down 10.6% year-on-year, primarily due to the repayment of borrowings and the redemption of bonds.

(3) Qualitative Information on Consolidated Earnings Forecasts (Forecast for operations in fiscal 2012)

The AIFUL Group is striving to improve its financial position and profitability by reforming its cost structure. At the same time, the Group is steadily undertaking repayments commensurate with its Business Revitalization Plan. Consistent with its basic policy on business reorganization, the Group is also acting to improve the quality of its loan portfolio and to further enhance operating efficiency.

As the business environment in which the AIFUL Group operates is extremely uncertain at the moment, given developments in claims for interest repayment, in addition to the effects of changes in the management environment due to the consolidation of the industry, restrictions on total lending limits under the Money Lending Business Act, and reductions in maximum interest rates under the capital subscription law, the AIFUL Group is not currently in a position to determine results forecasts for fiscal 2012, the fiscal year ending March 31, 2013, recognizing the difficulty in ascertaining the resultant effects on the Group’s results. In the event, during the fiscal 2012, that AIFUL is in a position to disclose earnings forecasts, it undertakes to do so in a timely manner.

2. Summary Information (Other)

(1) Changes in leading subsidiaries during the fiscal period

Not applicable

(2) Changes in accounting policies, accounting estimates and restatements

(Changes to accounting policies that are difficult differentiating from changes to accounting estimates)

Following the revision of the Corporate Tax Act, AIFUL Corporation and its consolidated subsidiaries have changed their depreciation method for tangible fixed assets (excluding buildings in AIFUL Corporation) that were acquired on and after April 1, 2012 to the one based on the revised Corporate Tax Act from the first quarter of the fiscal year under review.

The effect of this change is minor.

3. Important Events Affecting Premise of Going Concern

The AIFUL Group has traditionally raised short-term and long-term funds through a range of methods, including borrowing from financial institutions, issuing bonds, and securitizing loan receivables. However, the AIFUL Group’s fund-raising capacity has been confronted by difficult conditions in the current market environment for a variety of reasons, including increased expenses as the result of rising demands for excess interest repayments in accordance with a ruling by Japan’s Supreme Court in 2006 as well as the rapid and sharp deterioration in the fund-raising market environment in recent years. As a consequence, there have been concerns that the AIFUL Group may have difficulty in raising sufficient new funds

to sustain its business. For this reason, since the fiscal year ended March 31, 2010, conditions have risen to cast a substantial doubt about the AIFUL Group's ability to continue as a going concern.

To resolve this situation, the AIFUL Group applied on September 24, 2009 for Business Revitalization Procedures using the ADR process in order to improve its earning capacity and financial strength with the goal of revitalizing and reinforcing its business. At a meeting of participating creditors held on December 24, 2009, the AIFUL Group obtained approval for its Business Revitalization Plan, which includes the provision of financial support. As a result, Business Revitalization Procedures using the ADR process were adopted.

In the first quarter of fiscal year ending March 31, 2013, the AIFUL Group undertook the repayment of 23,094 million yen to creditors, including the ordinary scheduled repayment on June 11, 2012, in accordance with its Business Revitalization Plan.

By adopting concrete measures stipulated under the Business Revitalization Plan, the AIFUL Group has determined that any major uncertainty surrounding the premise of its standing as a going concern is not justified.
